NOTICE OF PUBLIC INFORMATION CENTRE

Class Environmental Assessment for the Innisfil Heights Sewage Pumping Station 4

InnServices has retained Ainley Group to undertake the Municipal Class Environmental Assessment (MCEA) for the Innisfil Heights Sewage Pumping Station 4. The study is being conducted in accordance with the 'Schedule B' requirements of the MCEA (as amended in 2024). The study will determine a preferred location for a new sewage pumping station needed to support future growth within the Innisfil Heights employment area, as identified in the Town's 2023 Master Servicing Plan. Through the Municipal Class EA process, several alternative locations were evaluated based on environmental, technical, social/cultural, and economic criteria, while considering constraints such as regulated lands, watercourses, species at risk habitat, groundwater conditions, and topography.

Public consultation is a key part of the MCEA process. A Public Information Centre (PIC) has been planned to provide an opportunity to review the study background, existing conditions, problems and opportunities and our recommended solution. The PIC will also serve as a forum to receive public feedback, which will be considered as part of the decision-making process.

Location: Town Hall Community Rooms
Innisfil Town Hall
2101 Innisfil Beach Road
Innisfil, ON L9S 1A1

Date: December 3, 2026

Time: 5:00 p.m. – 7:00 p.m.

Following the PIC, all additional information will be posted on the project webpage at:
