MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT FOR THE SANDY COVE SEWAGE PUMPING STATION STUDY NOTICE OF STUDY COMMENCEMENT

InnServices Utilities Inc. (InnServices, the Town's Water and Wastewater utility) is undertaking a Municipal Class Environmental Assessment Study to determine the requirements for a new sewage pumping station in the Sandy Cove settlement area. This study is intended to address new growth as identified in the Town's 2018 Master Servicing Plan (MSP) update, which provided both short and long-term wastewater servicing needs. As per the MSP, a new sewage pumping station is required in Sandy Cove to service lands that cannot be serviced by gravity sewers to the 25th Sideroad or Lockhart Road. The study area is shown in the figure below.

This Study will be prepared in accordance with the requirements of the Schedule B Municipal Class Environmental Assessment (Class EA process, October 2000, as amended in 2007, 2011 and 2015). The study will meet the requirements of Phases 1 and 2 of the EA process.

Public consultation is vital to the success of this study. InnServices wants to ensure that anyone interested in the Environmental Assessment process has the opportunity to provide input. It is anticipated that a Public Information Centre (PIC) will be held in 2022 to receive public input. A notice of the PIC will be published in advance of the meeting. Interested members of the public in attendance at the PIC will be able to sign up for a mailing list so that they can be kept informed of the study's progress. In addition, the public will be encouraged to provide their comments throughout

this study to ensure that any concerns can be adequately addressed. At the completion of the Study, a Project File Report can be made available for public review and comment.

Residents and interested parties are encouraged to regularly visit InnServices' website to find out more about the study, read project updates and find the notice for PICs (<https://innisfil.ca/water-and-wastewater-projects/>).

We are interested in hearing any comments or concerns that you may have. Communications received during the course of this study will be collected and responded to as required. Please contact either one of the representatives listed below if you have any questions or wish to be included on the direct mailing list.
