

# NOTICE OF STUDY COMMENCEMENT

## Class Environmental Assessment – Innisfil Heights Sewage Pumping Station 6 (IH SPS 6)

### The Study

InnServices Utilities Inc. completed a Master Servicing Plan (MSP) update in 2018 which identified short- and long-term strategies for water and wastewater servicing to accommodate the population and employment growth outlined in the Innisfil Official Plan (2018). The MSP recommended construction of five new sewage pumping stations (SPS) to service the Innisfil Heights economic district. Each proposed SPS will require a Schedule B Municipal Class Environmental Assessments (MCEA) prior to its construction. This Notice of Commencement is for the proposed new Innisfil Heights Sewage Pumping Station 6 (IH SPS 6) to be located in the Innisfil Heights area of the Town of Innisfil. The sewage pumping station will receive flows from the Innisfil Heights economic area (SPS1 and SPS2) and direct it to the Lakeshore Wastewater Treatment Plant.

The Innisfil Heights Sewage Pumping Station 6 study area is proposed to be located on Innisfil Beach Road as illustrated on the accompanying map.

### The Process

InnServices has retained Ainley Group to complete and document a Schedule B Class EA in accordance with the Municipal Class Environmental Assessment Document, October 2000, as amended in 2015.

### How to Get Involved

Public consultation is a key component of the Class EA process. Additional information will be made available once alternatives have been identified and evaluated. Advance notice will be provided to allow all interested parties an opportunity to comment. For further information regarding the project, please contact either of the following members of the study team:
