NOTICE
To Water Consumers within the
STROUD WATER
DISTRIBUTION SYSTEM

Please be advised that our operational staff will be performing scheduled maintenance flushing of the watermains in your area the week of **JUNE 16-19, 2026**, between the hours of 8:00 AM and 3:30 PM. It is not anticipated that flushing will be performed after 3:30 PM but unforeseen situations may arise that might alter this time.

During this flushing, your water may be discoloured for a short period of time. We would recommend that you refrain from water consumption activities (i.e., laundry) during this period. You may also experience reduced water pressure.

We would also advise that you run your cold water tap for a couple of minutes to flush out any sediment which may have accumulated within your water service line after flushing.

We apologize for any inconvenience.
