

COOKSTOWN WATER TOWER

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT AND PRELIMINARY DESIGN

InnServices Utilities Inc. completed a Master Servicing Plan (MSP) update in 2024 which identified short- and long-term strategies for water and wastewater servicing to accommodate population and employment growth outlined in the Innisfil Official Plan (2018). Under Section 9.2 of the MSP, Recommended Water and Wastewater Master Servicing Plan, the project involving the construction of a New Cookstown Elevated Tank was recommended for implementation under the short-term timeline to service Cookstown and the Highway 400 & 89 area to 2051.

The proposed elevated tank will be supplied by the Lakeshore Water Treatment Plant via a transmission main from Fennell's Corner and along County Road 89 and 15th Line. The elevated tank will be located on the Highway 89 corridor near the existing standpipes, as shown in the accompanying map.

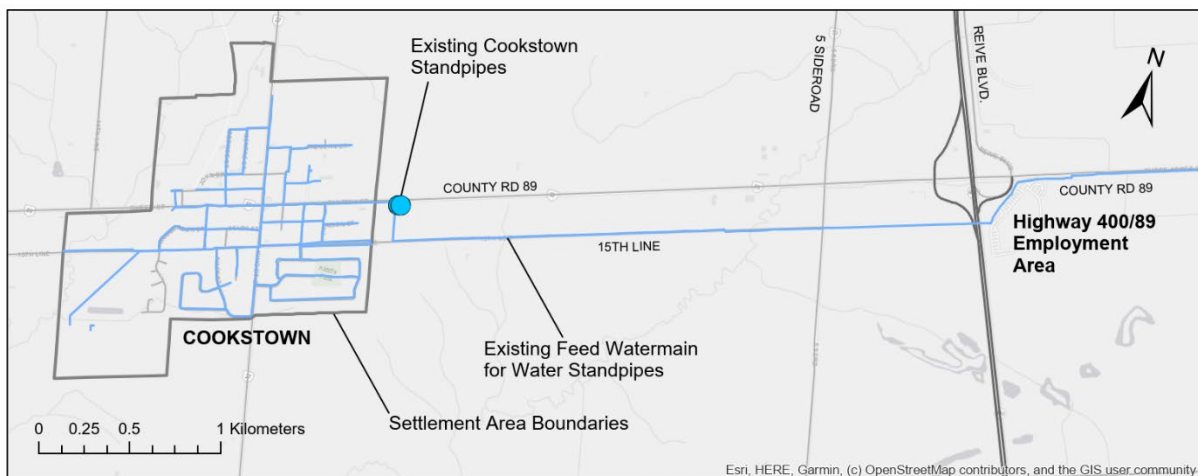

Figure 1 – Study Area

The project follows a Schedule B Municipal Class Environmental Assessment (MCEA). A key component of the study is consultation with the public, Indigenous Communities, regulatory agencies, and interested parties, through a Public Information Centre (PIC).

Purpose of Public Information Centre (PIC)

The purpose of this PIC is to present and obtain input on the preliminary preferred alternative for the location and type of new Elevated Water Tower.

The PIC will also detail next steps in the MCEA process and provide interested parties with the opportunity to get involved and provide input.

How to Comment

We invite you to drop in at the following in-person Public Information Centre session to review the displays and provide comments. The project team will be present to answer any questions that you may have.

- Date: Tuesday August 25th, 2026
- Time: 5:00 pm to 7:00 pm
- Location: Cookstown Library – Meeting Hall, 20 Church Street, Cookstown, ON

The presentation slides will be available on the InnServices project website after the PIC.

Consultation with the public, Indigenous Communities, regulatory agencies, and interested parties is a key element of a MCEA study. Anyone who wishes to comment on or be added to the contact list to receive future project notices should indicate their interest, preferably in writing to the following:

Sean Fahey, C.E.T.
Capital Project Manager
InnServices Utilities Inc.
sfahey@innservices.co

Walid Abi Akar, P.Eng.
Environmental Assessment Lead
R.V. Anderson Associates Limited
cookstownwaterea@rvanderson.com

Any input received during this process will be maintained on file for use during the project and may be included in project documentation. The information collected will be used in accordance with the Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments will become part of the public record.

This notice was first issued on July 27, 2026.
